Employment

Concurrent Computer Corporation – UI/UX Developer
Duluth, GA – June 2015 – Current
- Front End Development utilizing HTML5, CSS3, AngularJS, and JavaScript
- API integration with multiple services.
- UX considerations, including making current dashboards mobile-friendly
- Other work types including research and development, network topology creation, and integrating various JavaScript libraries like d3.js
- Became the most trusted UI developer in a short amount of time in part due to my speed in accomplishing tasks and my ability to take constantly changing direction.

Turnstile Media Group – Web Developer
Orlando, FL – May 2006 – June 2015
- Front End Development utilizing HTML5, CSS3, AngularJS, and JavaScript
- Back End Development utilizing Django, Python, ExpressJS, API integration, and ASP
- Large breadth of work types including news driven sites, data driven sites, e-commerce solutions, email browser compliant newsletters, analytics, and SEO

Eventstreams – Digital Media Producer
Atlanta, GA – April 2003 – May 2006
- Designed and Developed Live/On-Demand Video Streaming sites tailored to the Client in ASP, HTML, and CSS

Examples

Concurrent Computer Corporation
Administrative Panel for Network Management
Massive integration of OpenSource Projects TrafficOps, OpenNMS, Grafana and Laguna with a custom Angular based administrative panel featuring custom dashboards and configuration forms.

Golfweek
Massive Responsive Website
Custom Django backend CMS and migration of several detached sites to increase load times and administrative ease. Redesigning, from the ground up, responsive framework and mobile-friendly functionality.

Golfweek Mobile App/Browser
Breaking Golf News Site
Turnstile Media Group - AngularJS, PhoneGap/Cordova, CMS Integration (app, responsive mobile & desktop)

The Golf Wire
Golf Business News and Newsletters
Turnstile Media Group - AngularJS, Node.js, Express.js, database migration (responsive mobile & desktop) - 2 week rush delivery

GolfStat
Live Golf Scoring
Turnstile Media Group - AngularJS, archaic data integration (responsive mobile & desktop)
